

As a resident of nearby Falls Grove, I want to state that I strongly support the bill to create a Restoration Center on Seven Locks Road in Rockville, MD. I do not agree with the minority of highly vocal persons in our community that are opposed to the Restoration Center for “safety reasons”. It is classic NIMBY, even if they protest to the contrary.

Using a Restoration Center and the expertise house within it to address mental health incidences instead of Emergency Rooms or Jails is a big step in the right direction and I salute the county for this initiative.
